

Creating the Pentagon

Start with your square, fold in half.
Then fold it in half again.

Unfold it. Then fold the **lower** right corner **up** to the centre crease. Then unfold. Fold the **upper** right corner **down** to the centre crease. Then unfold.

You will have an X on the right side

Bring the lower left corner to the middle of your X on the right.

Fold the top flap in half towards the left.

Fold the bottom right edge to align with edge of the last fold.

Fold in half from bottom corner

Unfold the triangle piece...

Front **Back**

Fold in half 5 ways to make the creases extra creased!
Fold in half each way, one at a time.

Fold one flat side up. Matching up the points to the creases directly above.

Now you have lots of creases!

Make a strong crease with your finger, unfold, turn your pentagon 1/5 of a turn to the left and REPEAT on 5 times for each flat edge.

Fold the left flat edge over...

Take this corner, pull it up to the left...

At the same time fold the bottom flat edge up...

Then crease it flat.

Unfold. Turn your pentagon 1/5 of a turn to the left. Repeat. Do this 5 times.

You have even more creases!

Pinch each of your points on the pentagon.

As you pinch your points in towards the centre you will find the creases will start to create a star shape.

Fold the top point over.
Repeat on each point.

And there you have it!
